NEW WEBSITE DEVELOPMENT

Joomla Based CMS Websites start at \$1200

Please contact us so we can determine your needs. We offer free consultation and will provide a quote. Websites that we construct and maintain must be hosted on our servers.

Optional Features:

- Add a Custom Management Interface \$300

This allows you to manage your own content within key areas of your website avoiding update fees for ever-changing areas such as News articles, Download forms, etc. You do not need any technical skills to update a website using our Management area! Updates are accomplished by simply filling out an online form and pressing Submit. The server automatically transforms your pictures and text into a consistent, professional-looking web page.

- Add Social Media Automation \$300

Too busy for posting to Facebook and Twitter but want your content to be displayed where people “hang out”? No problem, let us help you create profiles for your business on Social Media platforms such as Facebook and Twitter. We will then provision the web server to “push” the new website content you post to these platforms automatically so you never even have to login. \$300

WEBSITE HOSTING

Our web hosting packages include full website backups.

Standard web hosting \$25 month billed annually

** To be invoiced on a monthly basis is \$35 per month.
If you have special web hosting requirements please contact us for a quote.*

Secured (HTTPS) access web hosting \$32 month billed annually

** To be invoiced on a monthly basis \$42 per month.*

If you have special web hosting requirements please contact us for a quote.

WEBSITE UPDATES OR MAINTENANCE

Updates to websites hosted on our servers \$50 hour, \$20 minimum.

Updates to website NOT hosted on our servers \$75 per hour, \$75 minimum.

After a website is complete and is live, modifications to the coding of a Custom Management Interface that allows our clients to maintain their own content is \$75 per hour, \$50 minimum.

DOMAIN NAMES

You can purchase a new domain name (or web address) at <http://domains.powerfulpublications.com> and manage your own annual renewals.

For Powerful Publications to analyze an email that you receive pertaining to your domain name as its legitimacy is **\$5 each** (forward a copy of it to domains@powerfulpublications.com)

(Optional) Pricing for Powerful Publications to manage your domain name:

- Registration of a new domain (one-time fee) \$35 *
- Annual renewal & management of your domain \$35 *

Benefits of allowing Powerful Publications to manage your domain:

- We handle the annual renewal of your domain avoiding domain lapse and very expensive redemption fees charged by the Registrar to re-instate a lapsed domain.

- We respond to the required annual email sent by the Registrar verifying contact information (if you fail to respond they are forced suspend your domain and website).
- We decypher domain related emails as to their legitimacy

* For Powerful Publications to manage your domain name we require that your domain resides in our OpenSRS/Tucows management interface, and that your website be hosted on our servers.

Other one-time fees may apply:

A transfer of your domain name from your current Registrar to our OpenSRS/Tucows management interface is required.

If you currently host elsewhere a migration of your website to our servers is necessary. After migration between servers you will need to modify your email settings on all PCs and devices. If you have messages stored on the old server we can migrate them as well. Please contact us and we will determine what needs to be done.

ON-SITE VISITS

If an on-site visit is *required* for new website development there is no charge.

Availability for on-site visits are:

By appointment only

Monday – Friday

After 5PM

\$75 per hour (\$75 minimum)

Pricing subject to change. Please contact us if you have questions.
